

BUREAU VAN DIJK, A MOODY'S ANALYTICS COMPANY

The world's most powerful
comparable data resource
on private companies.

ORBIS

Bureau van Dijk's flagship product, Orbis, has information on around 300 million companies from all countries around the world. It's the resource for private company data. It includes information on over 71,000 listed companies in a more detailed format, plus millions of M&A deals and rumors and 175 million individuals in 315 million roles.

- Research individual companies or compare companies in globally comparable formats
- Search for companies with over a hundred search criteria
- Understand corporate structures and hierarchies

Regional versions of Orbis are available for Europe, Asia Pacific and Americas.

MOODY'S ANALYTICS BANKFOCUS

Moody's Analytics BankFocus* combines detailed content from Bureau van Dijk and Moody's Investors Service, and expertise from Moody's Analytics. It contains financial statements for banks, as well as providing financial statements for non-bank financial institutions. You can:

- Do like-for like analysis on more banks than any other solution
- Get a comprehensive, portfolio-level view of a bank's group exposure
- Leverage key data for due diligence, AML research and compliance
- View market indicators and credit ratings
- Use the data to add clarity, depth and breadth to your work and increase efficiency

*Bankscope data is no longer available for purchase and access was discontinued December 2016.

OSIRIS

Osiris has very detailed information on major unlisted/delisted companies across the globe. It's easy to use and helps you navigate company information quickly.

- Search by hundreds of criteria — you can search by trends and over multiple years
- Create a detailed financial analysis on a company
- Access a wealth of complementary information such as M&A deals and rumors, news and market research
- Refer to original filings using a library of scanned images
- Illustrate financials with easy-to-create graphs

ABOUT BUREAU VAN DIJK, MOODY'S ANALYTICS COMPANY

With information on around 300 million companies in all countries worldwide Bureau van Dijk is *the* resource for private company data. They capture and treat private company information for better decision making and increased efficiency. Their product range combines data from regulatory and other sources, including 160 information partners, with flexible software to allow users to manipulate data for a range of research needs and applications. A key benefit of their information is how simple they make it to compare companies internationally.

ABOUT WRDS

Wharton Research Data Services (WRDS) provides the leading business intelligence, data analytics, and research platform to global institutions — enabling comprehensive thought leadership, historical analysis, and insight into the latest innovations in academic research.

WRDS provides researchers with one location to access over 350 terabytes of data across multiple disciplines including Accounting, Banking, Economics, ESG, Finance, Healthcare, Insurance, Marketing, and Statistics. Flexible data delivery options include a powerful web query method that reduces research time, the WRDS Cloud for executing research and strategy development, and the WRDS client server using PCSAS, Matlab, R and more. Our rigorous data review and validation give users the confidence to tailor research and create a wide range of reliable data models. WRDS unique array of Services offer access to a suite of analytics developed by our doctoral-level research team, tutorials, research support, and Classroom by WRDS — a teaching and learning toolkit designed to introduce business concepts in the classroom. The WRDS Experience is more than just a data platform.

WRDS is a leader in impactful research. Through a partnership with SSRN, WRDS is elevating the visibility of universities and researchers working across an array of fields. The WRDS Research Paper Series is a searchable repository of all papers submitted to SSRN that cite WRDS in their work. In addition, the two organizations have launched the *WRDS-SSRN Innovation Award™* to honor emerging business schools in North America, Asia-Pacific, and EMEA.

An award-winning data research platform for 50,000+ commercial, academic, and government users in 35+ countries, WRDS is the global gold standard in data management and research — all backed by the credibility and leadership of the Wharton School.

ABOUT THE WHARTON SCHOOL

Founded in 1881 as the first collegiate business school, the Wharton School of the University of Pennsylvania is recognized globally for intellectual leadership and ongoing innovation across every major discipline of business education. With a broad global community and one of the most published business school faculties, Wharton creates economic and social value around the world. The School has 5,000 undergraduate, MBA, executive MBA, and doctoral students; more than 9,000 participants in executive education programs annually and a powerful alumni network of 96,000 graduates.
