ABOUT WRDS

Wharton Research Data Services (WRDS) provides the leading business intelligence, data analytics, and research platform to global institutions — enabling comprehensive thought leadership, historical analysis, and insight into the latest innovations in academic research.

WRDS provides researchers with one location to access over 350 terabytes of data across multiple disciplines including Accounting, Banking, Economics, ESG, Finance, Healthcare, Insurance, Marketing, and Statistics. Flexible data delivery options include a powerful web query method that reduces research time, the WRDS Cloud for executing research and strategy development, and the WRDS client server using PCSAS, Matlab, R and more. Our rigorous data review and validation give users the confidence to tailor research and create a wide range of reliable data models. WRDS unique array of Services offer access to a suite of analytics developed by our doctoral-level research team, tutorials, research support, and *Classroom by WRDS* — a teaching and learning toolkit designed to introduce business concepts in the classroom. The *WRDS Experience* is more than just a data platform.

WRDS is a leader in impactful research. Through a partnership with SSRN, WRDS is elevating the visibility of universities and researchers working across an array of fields. The WRDS Research Paper Series is a searchable repository of all papers submitted to SSRN that cite WRDS in their work. In addition, the two organizations have launched the WRDS-SSRN Innovation Award™ to honor emerging business schools in North America, Asia-Pacific, and EMEA.

An award-winning data research platform for 50,000+ commercial, academic, and government users in 35+ countries, WRDS is the global gold standard in data management, innovative tools, analytics, and research services — all backed by the credibility and leadership of the Wharton School.
