

## BUREAU VAN DIJK, A MOODY'S ANALYTICS COMPANY

The world's most powerful comparable data resource on private companies.

### ORBIS

Bureau van Dijk's flagship product, Orbis, is the leading entity database. It covers public and private companies, banks, non-banking financial institutions, insurance companies, marine vessels, sole proprietorships, funds, individuals, shareholders, ultimate owners, beneficial owners, and subsidiaries. Orbis is the ideal tool to verify a company exists and to source company reports – you're much more likely to find a company report on Orbis than any other database.

- Research individual entities or compare companies in standardized formats
- Search for companies with over a hundred search criteria
- Perform detailed financial analysis on a company
- Compare companies across borders
- Create and analyze peer groups
- Access graphs and visualization tools so you can understand your results in seconds

▲ 10 YEARS OF COVERAGE

### OSIRIS

Osiris contains detailed information on major unlisted/delisted companies across the globe. It's easy to use and helps you navigate complex company information quickly.

- Search by hundreds of criteria — you can search by trends and over multiple years
- Create a detailed financial analysis on a company
- Access a wealth of complementary information such as M&A deals and rumors, news and market research
- Refer to original filings using a library of scanned images
- Illustrate financials with easy-to-create graphs

▲ 20 YEARS OF COVERAGE

### AMADEUS

Amadeus contains comprehensive information on around 21 million companies in Western and Eastern Europe. You can use it to research individual companies, search for companies with specific profiles and for analysis.

- Perform detailed financial analysis on a company
- Incorporate complementary information like M&A deals and rumours into your financial analysis
- Compare companies across borders
- Create and analyze peer groups

▲ COVERAGE FROM 1984

### MOODY'S ANALYTICS BANKFOCUS

Moody's Analytics BankFocus contains financial statements for banks, as well as providing financial statements for other financial institutions. You can:

- Compare like-for-like analysis of more banks than any other solution
- Enjoy a comprehensive, portfolio-level view of a bank's group exposure
- View market indicators and credit ratings
- Access links to source filings, to see how data points are derived

## ABOUT BUREAU VAN DIJK, MOODY'S ANALYTICS COMPANY

With information on close to 400 million companies in all countries worldwide Bureau van Dijk is the resource for private company data. A key benefit of their information is how simple they make it to compare companies internationally.

## ABOUT WRDS

Wharton Research Data Services (WRDS) is the leading business intelligence, data analytics, and research platform for global institutions enabling comprehensive thought leadership, historical analysis, and insight into the latest innovations in academic research.

WRDS democratizes data access so that all disciplines, Accounting, Banking, Economics, ESG, Finance, Healthcare, Insurance, Marketing, and Statistics, can easily search for concepts across the data repository. Partnering with global vendors, WRDS hosts 350+TB of data — the broadest collection of data on the most robust computing infrastructure to give users the power to analyze complex information at speeds of up to 400MB per second.

Flexible data delivery options include a powerful web query method that reduces research time; the WRDS Cloud for executing research and strategy development; and the WRDS client server using SAS, Python, R, Stata, Matlab, and more. Our rigorous data review and validation give users the confidence to tailor research and create a wide range of reliable data models.

WRDS' unique array of Services include access to a suite of *Analytics* tools and *Learning Pathways* —providing curated, guided resources for Researchers, Instructors, and Information Professionals. Through data, analytics, research and technology, approach your research using real world examples and advance your analysis to answer the most critical questions with your data.

WRDS is a leader in impactful research. Through a partnership with SSRN, WRDS is elevating the visibility of universities and researchers working across an array of fields. The WRDS Research Paper Series is a searchable repository of all papers submitted to SSRN that cite WRDS in their work. In addition, the two organizations have launched the *WRDS-SSRN Innovation Award*<sup>™</sup> to honor rising business schools in the North America, Asia Pacific, and EMEA regions. WRDS is more than just a data platform. Supporting over 75,000 commercial, academic, and government users at 500+ institutions in 35+ countries, WRDS is the global gold standard in data management, innovative tools, analytics, and research services — all backed by the credibility and leadership of the Wharton School.
